公司概况

COMPANY OUTLINE

「继续通过包装为社会做贡献」

Continue Contributing to Society through Packaging

自1946年成立以来，我们一直致力于开发包装技术，由于这一点，我们得到了工业界的高度赞扬，”技术FUJI”和”高品质FUJI”成长为日本包装机械行业的领先代表。而现在，在一个新时代，我们正朝着更高的目标挑战自我。在关注包装的起源的同时，我们将积极引进新技术，例如易于使用的包装机械和与时俱进的系统，更可靠的省力系统，有助于改善环境的包装系统等，努力开发保持最新状态所需的新产品。在FUJI，通过与客户的沟通，我们了解他们的需求，并将其视为追求上述需求的发展基础。我们将继续致力于FUJI的”提供让客户满意的机器和服务”的基本理念，所以我们感谢您的持续指导和支持。

We have consistently made efforts to develop packaging technology since being established in 1946. Thanks to this, we have received high praise from industrial circles as “Technological FUJI” and “High-quality FUJI” growing to become a leading representative of the packaging machinery industry in Japan. And now, in a new era, we are challenging ourselves toward even higher goals. While focusing on the origins of packaging, we will actively introduce new technologies, such as easier-to-use packaging machinery and systems that match the times, more reliable labor-saving systems, packaging systems that contribute to a better environment, etc., making efforts to develop new products required to stay current. At FUJI, through communication with our customer we learn their needs, considering it the basis of development to pursue said needs. We will continue devoting ourselves to FUJI's basic philosophy to “provide machinery and services that make our customers happy”, so we appreciate your continued guidance and support.

响应市场需求，挖掘市场需求，创造市场需求。

Respond to the needs of the market, unearth the needs of the market, create the needs of the market.

信進親
義取愛

富士的优势

Why Customers Keep Choosing Us

先进的技术

Advanced Technology

- 包装行业先驱者
- 不断进步的产品
- 包装机机器人的先驱
- Pioneer of the Packaging
- Industry Continuously Evolving Products
- Pioneer of Robotics

满足客户的定制需求

Customization that Meets Customer Needs

- 支持多种封装形状
- 广泛的包装机外围设备
- 根据产品特性定制
- Support for a Wide Range of Package Shapes
- Wide Range of Packaging
- Machine ·Peripherals Packaging Machines that Suit the Characteristics of Packaged Products

包装线获得高满意度

Packaging Lines that Earn High Satisfaction

- 提供包装线整线
- FLAN(Fuji LocalAreaNetwork)的全面管理
- Providing a Packaging Line that Combines Packaging Machinery and Peripherals Total Management by FLAN

完备的售后支持

Extensive After-Sales Support

- 完备的售后支持团队
- 定期回访的制度
- A Complete Support System
- A Support System that Prevents Machine Failure

全球化的产品和销售网络

World-Renowned Product and Sales Network

- 行业大公司的对应能力
- 全球认可的日本制造质量
- 分布全球的办事处
- The Best Global Network in the World
- Made in Japan Quality Recognized Worldwide
- Global Expansion

行业领先的稳定性

Industry-Leading Reliability

- 大批量订单的对应能力
- 包装机行业的龙头企业
- 稳定的客户群体
- Support that Utilizes the Company's Scale
- A Major Company in the Packaging Machinery Industry
- Broad customer base in a stable industry

产品总览

Product Overview

横枕式包装机Horizontal
Pillow Packaging Machines

- α8系列
- 新的TLM-α系统
- FW3401HS αVII
- FW3400BSGM
- FW3451AN
- FW3462
- FPW系列
- FW280
- CX系列
- VX系列

拉伸薄膜包装机Stretch
Film Wrapping Machines

- FP35
- FP40A
- FP65
- A18系列
- FW3461
- FW3461JrA

立式包装机Vertical
Pillow Packaging Machines

- FW7700N系列
- FW7700NHS
- FW7700NFS
- FW77N
- FA100
- THS

其他Others

- FW30A
- FW30ASW
- FW39
- FW700N
- FW130
- O-07
- FP20
- N7500IIIb
- FW110
- FMC100
- 密封检查机器

装箱机Case Packer

- FC500N
- FC510系列
- FW6600系列
- FC41
- FW625

包装机用自动供给装置
Inline Feeder

- FFS1000 / Na
- FFS100系列
- FFS150系列
- FFS180
- FFS300
- FFS500
- FFS510
- FFS520
- FFS400 + 纸板分配器

装盒机 Cartoning Machine

- FC31系列
- FW808系列
- FC65
- FC8000GM

机器人Robot

- FR502

包装内容

Packaging content

面包Bread:

吐司面包、点心面包、三明治、蒸面包、汉堡Loaves of bread, sweet bread, snack bread, bread rolls, sandwiches, steamed buns

点心Sweets:

铜锣烧、曲奇、巧克力、糖果Dorayaki, monaka, cookies, chocolate, candy, etc.

冷冻品Iced food:

雪糕、冰淇淋、冷冻面、冷冻食品Ice cream, frozen noodles, frozen foods

水产/加工产品Seafood:

鱼糕、炸猪肉、蟹肉、鱼片、海带、海苔、鲜鱼Kamaboko, chikuwa, satsuma-age, crab sticks, fish sashimi, seaweed, nori, fresh fish

农畜产品Agricultural Prducts:

蔬菜、水果、精肉、火腿、腊肠、香肠、蘑菇Vegetables, fruit, dressed meat, ham, sausage, frankfurters, mushrooms

面食Noodles:

袋面、杯面、意大利面Instant noodles, cup noodles, spaghetti

烹调食品Ready Meals:

年糕、袋装食品、速食汤、便当、饭团、预制菜等 Side dishes, mochi, retort pouch food, soy sauce, bento, onigiri, etc.

饮料Beverages

瓶装饮料、罐装饮料、速溶咖啡、茶包、可可Bottled beverages, canned beverages, instant coffee, tea packs, cocoa

粉类产品Powdered Food:

面粉、奶粉Flour, powdered milk

文具Stationery:

墨盒、复印纸、笔记本、笔Ink cartridges, printer paper, notebooks, pens

工业产品Industrial Products:

插座、开关、管道软管、阀门、轴承Outlets, switches, duct hoses, bulbs, bearings

医药Pharmaceuticals:

PTP、安瓿瓶、创可贴、导管等PTP, ampoule products, inhalers, adhesive bandages, catheters, etc.

主打产品

Major Projects

横枕式包装机 FW3400/B α8 Horizontal Pillow Packaging Machines

特征 FEATURES

富士机械引以为豪的最新旗舰型号的高速横枕式包装机。不断刷新包装机的基本性能，进化成更加易懂易用、安全放心的机器。只需输入想要包装的产品的基本信息，就能通过自动计算出合适的数值，大幅度减少操作员的工夫。

Fuji Machinery takes pride in its latest flagship model of high-speed horizontal pillow packaging machine. Continuously refresh the basic performance of packaging machines and evolve into machines that are easier to understand, use, safe, and reliable. Just enter the basic information of the product you want to package, and the appropriate value can be automatically calculated, greatly reducing the operator's effort.

技术参数 SPECIFICATIONS

设备名称 Machine Model	最大包装能力 Dispensing Ability	卷膜最大宽度 Film Maximum width	剪切尺寸 Cut Off Length	最大袋宽/高 Largest Product Size
FW3400/B	250包/分	450mm	80~170mm	140mm/30mm
FW3700/B	150包/分	450mm	100~340mm	140mm/60mm
FW3410/B	150包/分	650mm	90~250mm	200mm/60mm
FW3710/B	120包/分	650mm	130~430mm	200mm/100mm

适合产品 APPLICABLE PRODUCT RANGE

甜面包，卷面包，铜锣烧，羊羹，饼干，年轮蛋糕，曲奇，奶油泡芙，冰淇淋，冷冻面，冷冻食品，香肠，方便面，杯面，意大利面，年糕，茶泡饭，味噌调料，墨盒，A4纸，笔记本，笔，插座，开关，灯泡，轴承

Sweet bread, bread rolls, steamed buns, dorayaki, monaka, yokan, cookies, rusks, baumkuchen, flan, cream puffs, ice cream, frozen noodles, frozen foods, sausages, instant noodles, cup noodles, spaghetti, mochi, ochazuke, cup miso, ink cartridges, printer paper, notebooks, pens, outlets, switches, duct hoses, bulbs, bearings

自动理料装置 FFS100 FRONT FEEDING DEVICE

特征 FEATURES

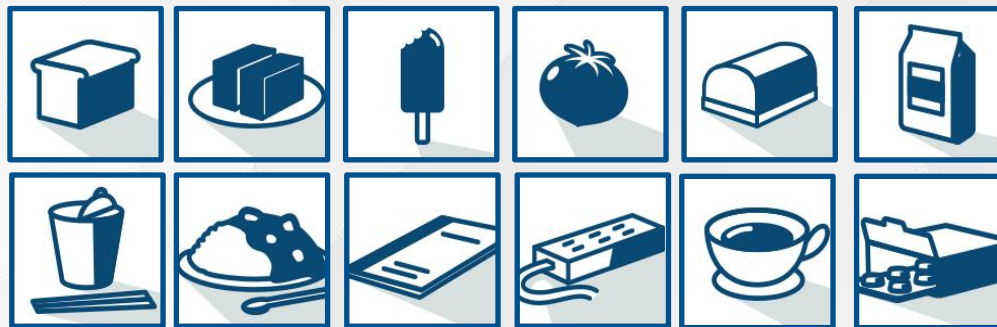

将堆积输送带上的产品等距分离后送至包装机的链条供给输送。还有不锈钢规格 (U)

Individually separates products on the pool conveyor and sends them to the packaging machine's dispensing conveyor attachment. Also has stainless steel specifications (U).

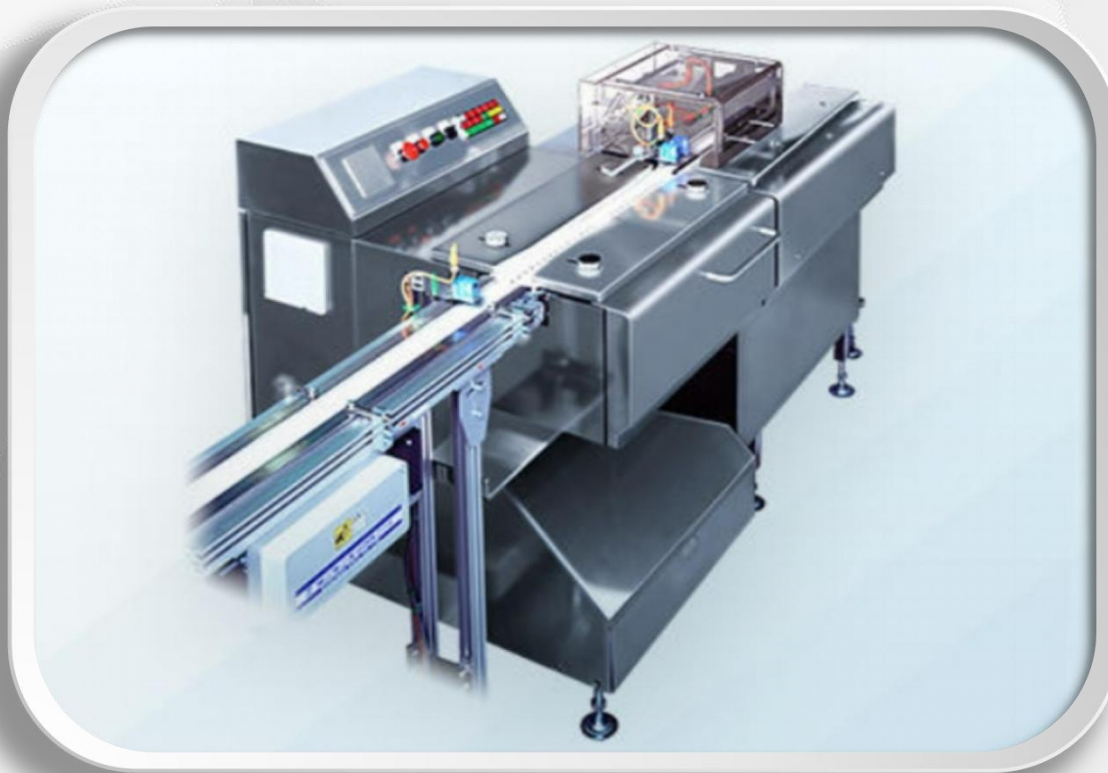

技术参数 SPECIFICATIONS

设备名称 Machine Model	最大包装能力 Dispensing Ability	产品尺寸 Product Dimensions
FFS100	每长度 (mm) 不超过 20,000转速低于300rpm	长(L): 40 ~ 250 mm 宽(W): 20 ~ 110mm 高(H): 10 ~ 50 mm

适合产品 APPLICABLE PRODUCT RANGE

全部产品 ALL

主打产品

Major Projects

自动装箱机 FC500N Case Packer

特征 FEATURES

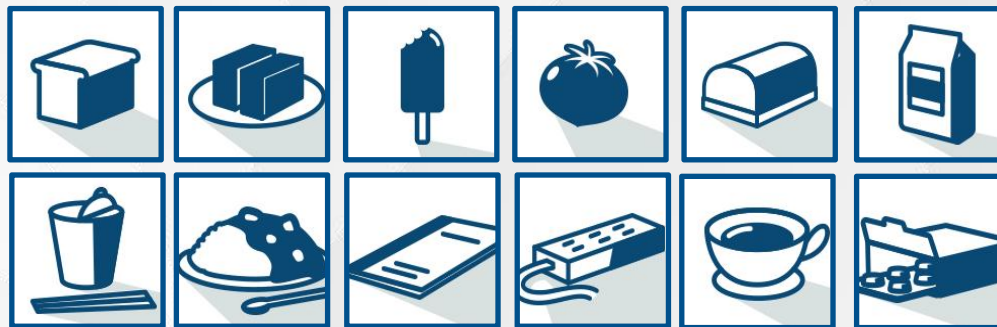

具有侧面包装技术的安装箱包装机。
它简化了高容量的盒子制作过程。

A setup case packer with a side packing technique. It streamlines the box-making process for high capacity.

技术参数 SPECIFICATIONS

设备名称 Machine Model	最大包装能力 Dispensing Ability	箱子最大尺寸 Case Dimensions
FC500N	15箱/分	长(L): 150~550mm 宽(W): 150~400mm 高(H): 160~400mm

适合产品 APPLICABLE PRODUCT RANGE

全部产品 ALL

主打产品

三明治包装机 FW39NK Sandwich Packaging Machines

特征 FEATURES

一种三角形三明治包装机，使用制造的袋子。自动折叠和密封包装在袋子中的三角形三明治的开口。紧凑型FW32也可提供。

A triangular sandwich wrapping machine that uses a manufactured bag. Automates folding and sealing the opening of triangular sandwiches packed into bags. Compact type FW32 also available.

技术参数 SPECIFICATIONS

设备名称 Machine Model	最大包装能力 Dispensing Ability	产品尺寸 Product Dimensions
FW39NK	每分钟高达42	长(L): 102~110mm 宽(W): 65~100mm 高(H): 95~100mm

适合产品 APPLICABLE PRODUCT RANGE

三明治 Sandwich

美技昆山工厂

FPMK

三明治包装机FW39NK

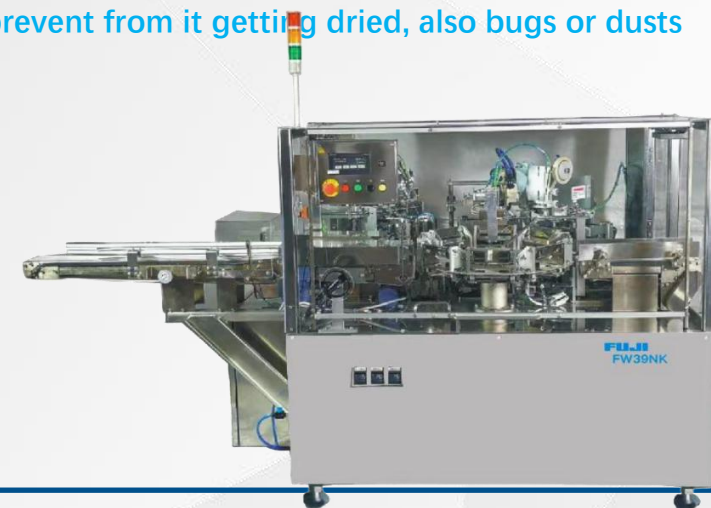

Sandwich packaging machine

FUJI 在中国首款现地化的三明治包装机，
在保证高品质的同时，降低了设备的价格。

FUJI first localized sandwich packaging machine in China,
While ensuring high quality, the price of the equipment has been reduced.

- 将三明治包装时的复杂工艺自动化。
- 采用新式折入部可变机构将宽度不同的三明治优美地包装起来
- 利用供给导向输送带，可以兼容包装不同宽度的三明治。
- 可以兼用通常产品以及带耳三明治，并且操作简单。(选项)
- Folding and taping to close bags automatically when the machine wraps sandwiches.
- Variable mechanism at folding part is installed to make wider product wrapped in better appearance
- Side infeed belt assist stable transfer for wider range of products
- It can be switched by simple operation to crust sandwich from standard sandwich. (Optional)
- Sealing opened three sides to prevent from it getting dried, also bugs or dusts getting into a bag.

美技昆山工厂

FPMK

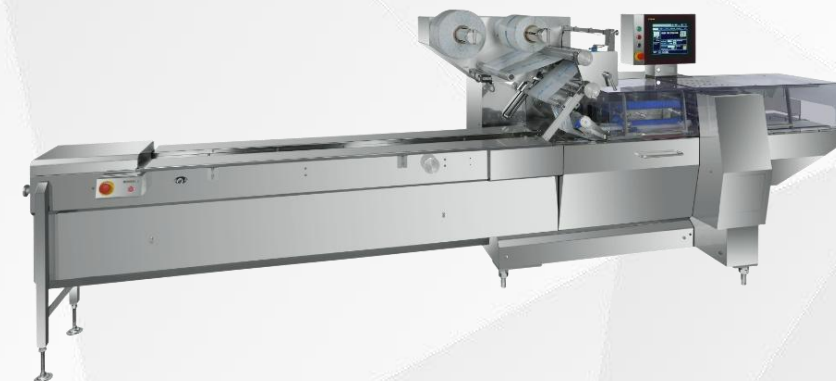

方便面供给包装线 FW3400 CXII Instant noodle supply packaging line

昆山自制的方便面供给部，配合3400CXII机器。
前端皮带上料，使用昆山自制的FFS100进行理料，后端进行包装。
FPMK self-made instant noodle supply department, in conjunction with the 3400CXII machine.
Front end belt feeding, using Kunshan made FFS100 for material sorting, and rear end packaging.

- 宽屏触摸面板/通用化设计
- 更换膜便捷化/减少膜路径
- Wide screen touch panel/universal design
- Convenient membrane replacement/reduced membrane pathways

美技昆山工厂

FPMK

配合机械手月饼包装线 FW3400/B
Mooncake supply robot packaging line

FUJI 在月饼包装单机的基础上，追加了月饼供给，装盒，装箱的工艺。提供月饼整线。

FUJI has added processes for mooncake supply, packaging, and boxing on the basis of a single mooncake packaging machine. Provide a complete line of mooncakes.

- 由伺服电机完成驱动的标准枕式包装机。
- 包装功能全面，在性能与操作性方面有着全新的进步
- 端封有回转式与往复式两种模式可供选择。
- 供给部可选用无推杆皮带式供给。
- A standard pillow packaging machine driven by servo motors.
- The packaging has comprehensive functions and has made new progress in performance and operability
- There are two types of end seals to choose from: rotary and reciprocating.
- The supply department can choose a belt type supply without a push rod.

美技昆山工厂
FPMK

皮带式包装机 FW3410/B Belt type packaging machine

皮带式包装机

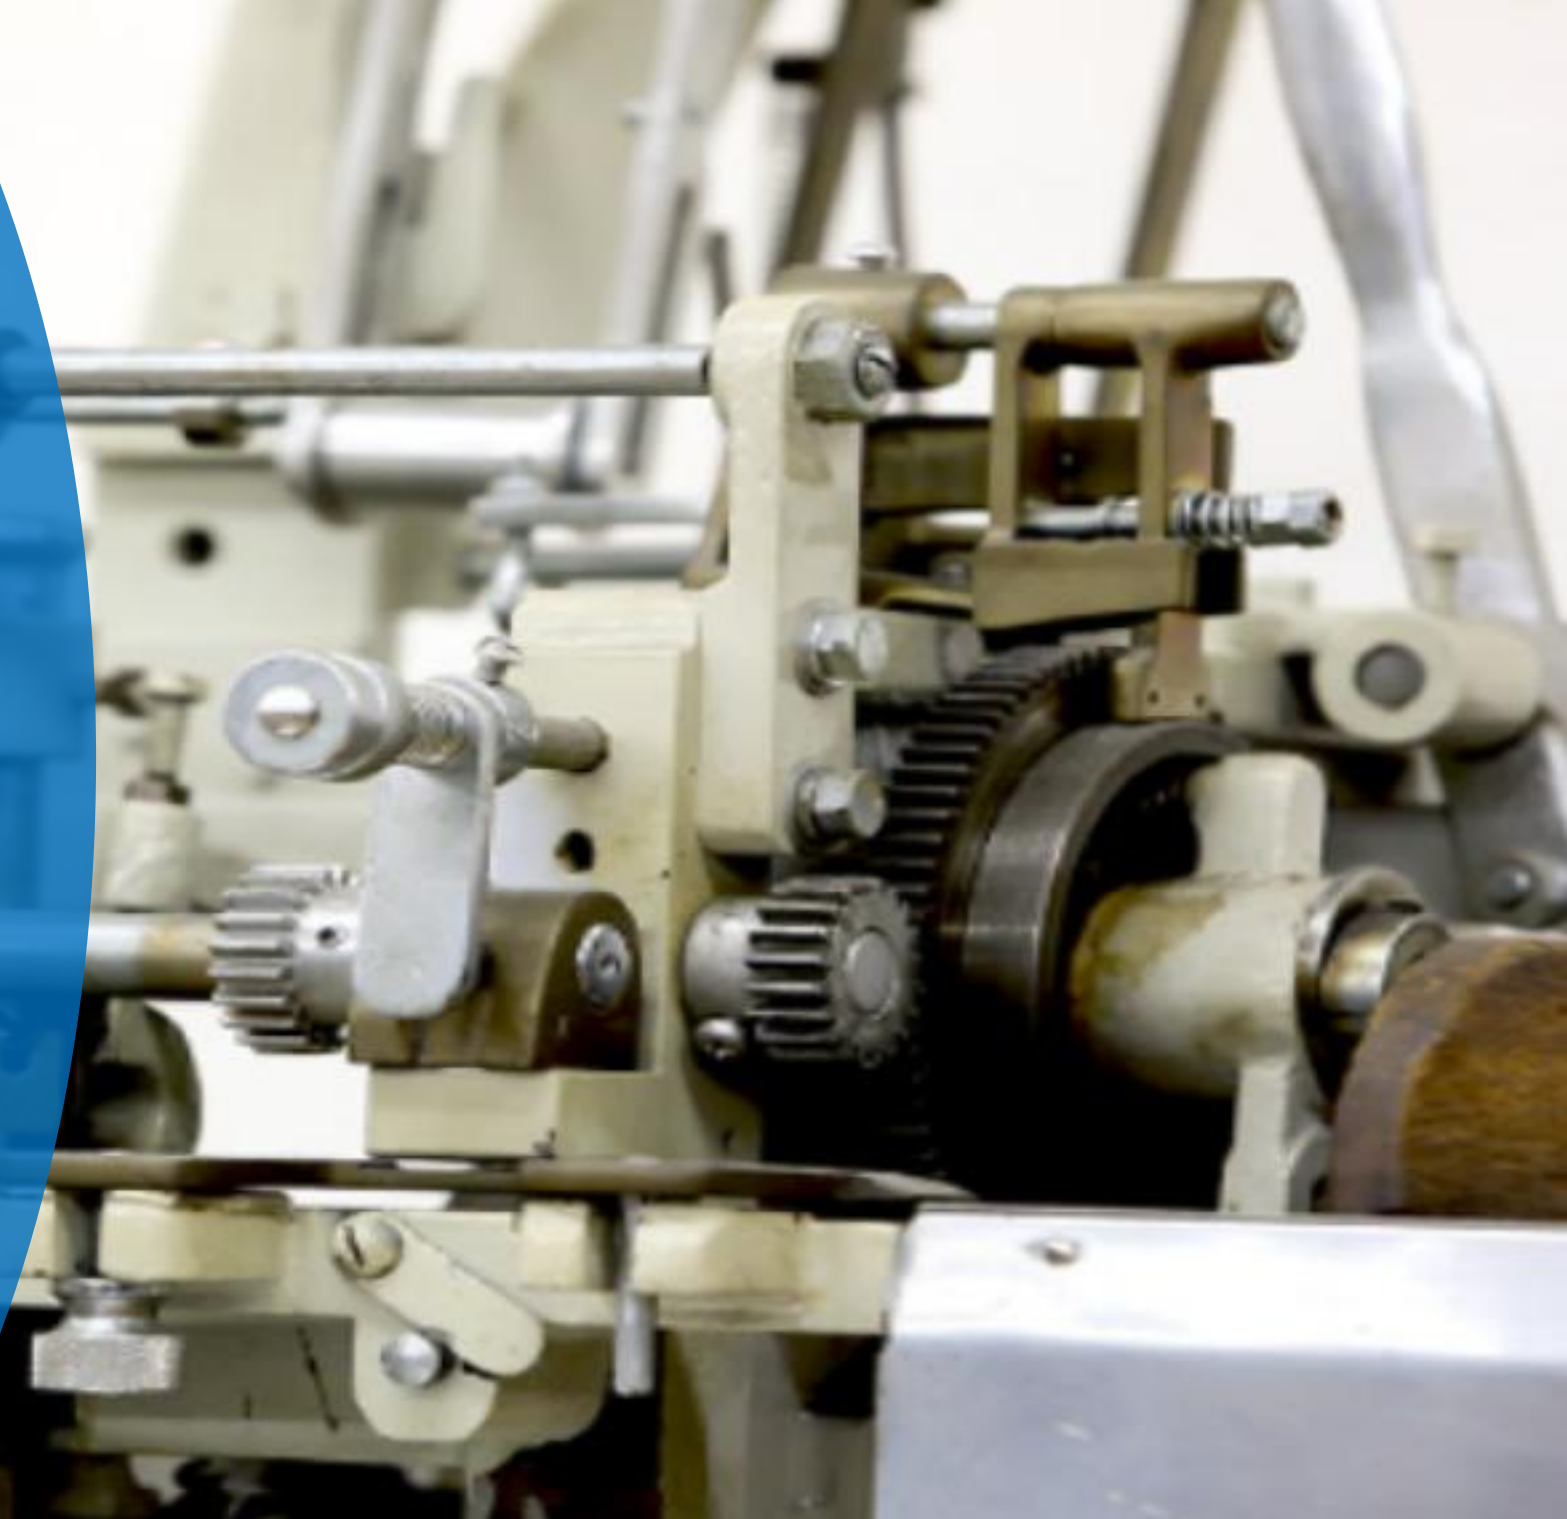

Belt type packaging machine

- 由伺服电机完成驱动的标准枕式包装机。
- 供给部采用无推杆皮带式供给控制来料。
- 供给皮带无需任何工具即可拆卸，方便清洁。
- A standard pillow packaging machine driven by servo motors.
- The supply department adopts a non push rod belt type supply control for incoming materials.
- The supply belt can be disassembled without any tools, making it easy to clean.

Practical cases

月饼分拣

Mooncake sorting

月饼包装装箱整线 Mooncake packaging and packing line:

月饼从包装机出来后，由视觉识别位置，机器人分拣装箱。

After coming out of the packaging machine, mooncakes are visually recognized for their position and sorted and boxed by robots.

实际案例

Practical cases

验孕棒包装整线

Pregnancy test rod
packaging line

验孕棒包装整线 Pregnancy test rod packaging line:

验孕棒外观视觉检测-贴片-打印标识-补料-印字检测-机器人捆包。

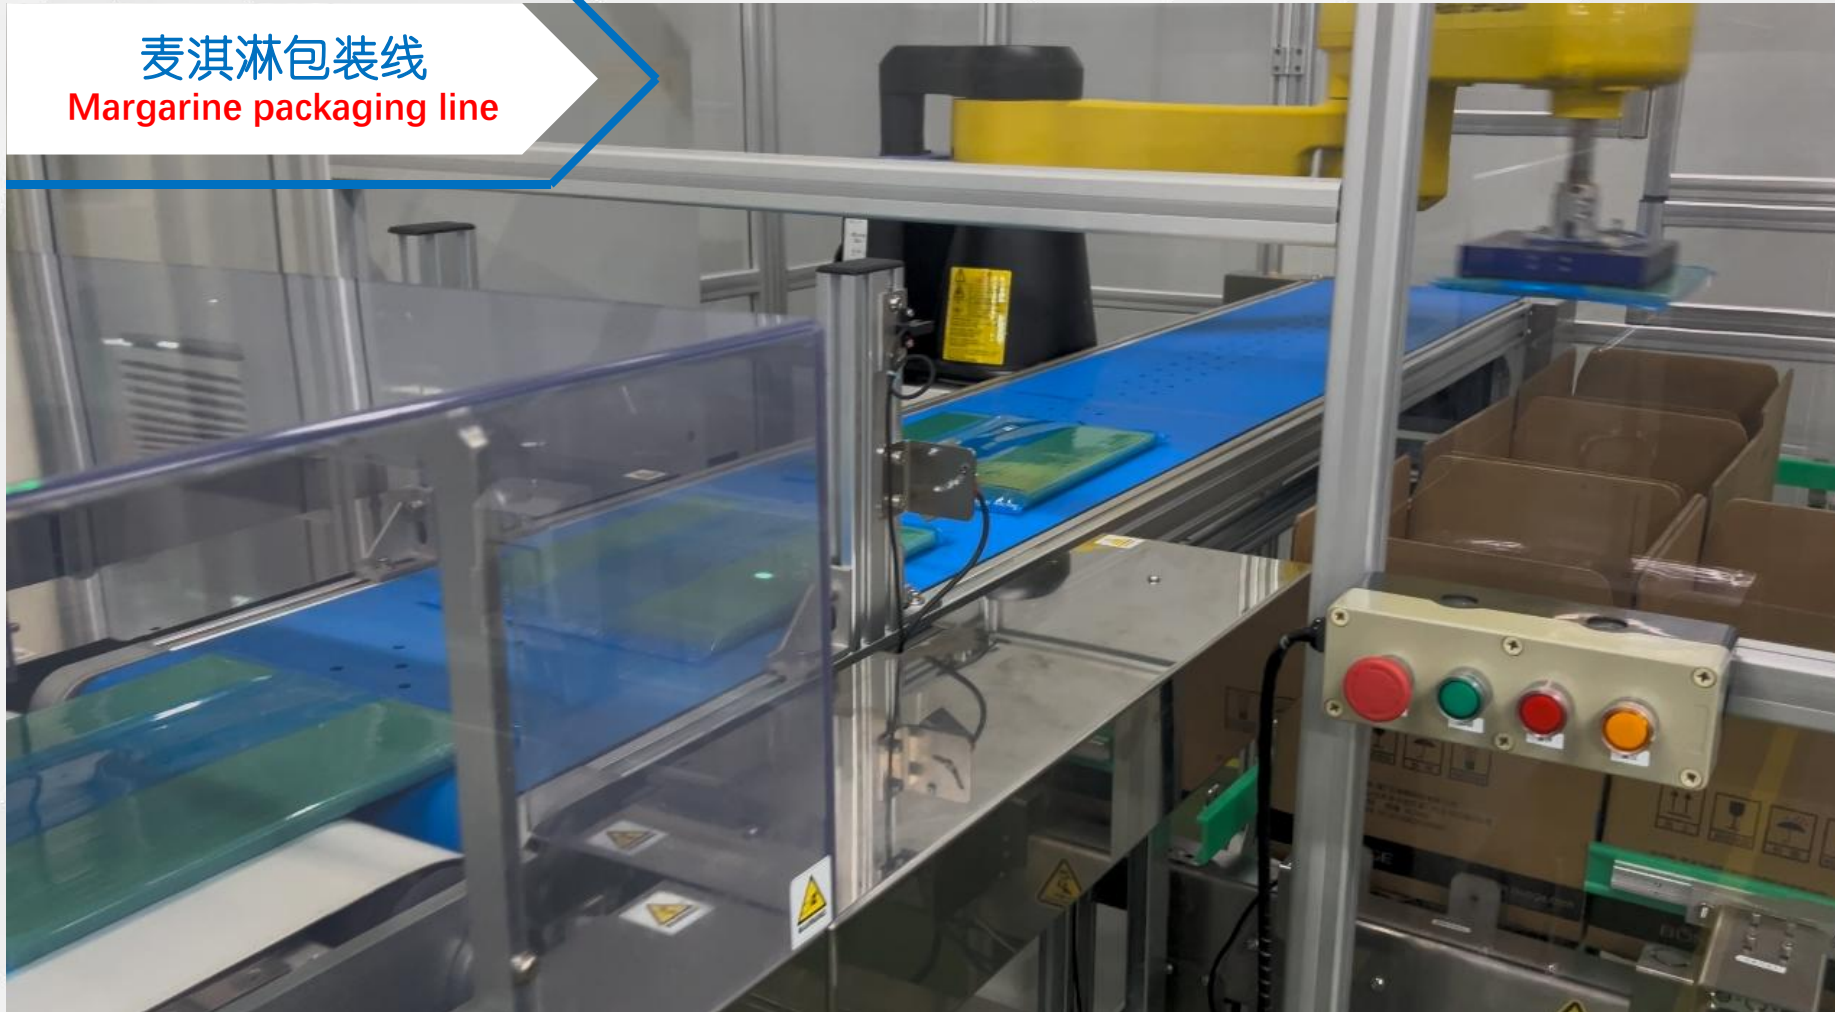

Visual inspection of appearance of pregnancy test rod - SMT - printing sign -
feeding - printing inspection - robot bundling.

实际案例

Practical cases

麦淇淋包装线
Margarine packaging line

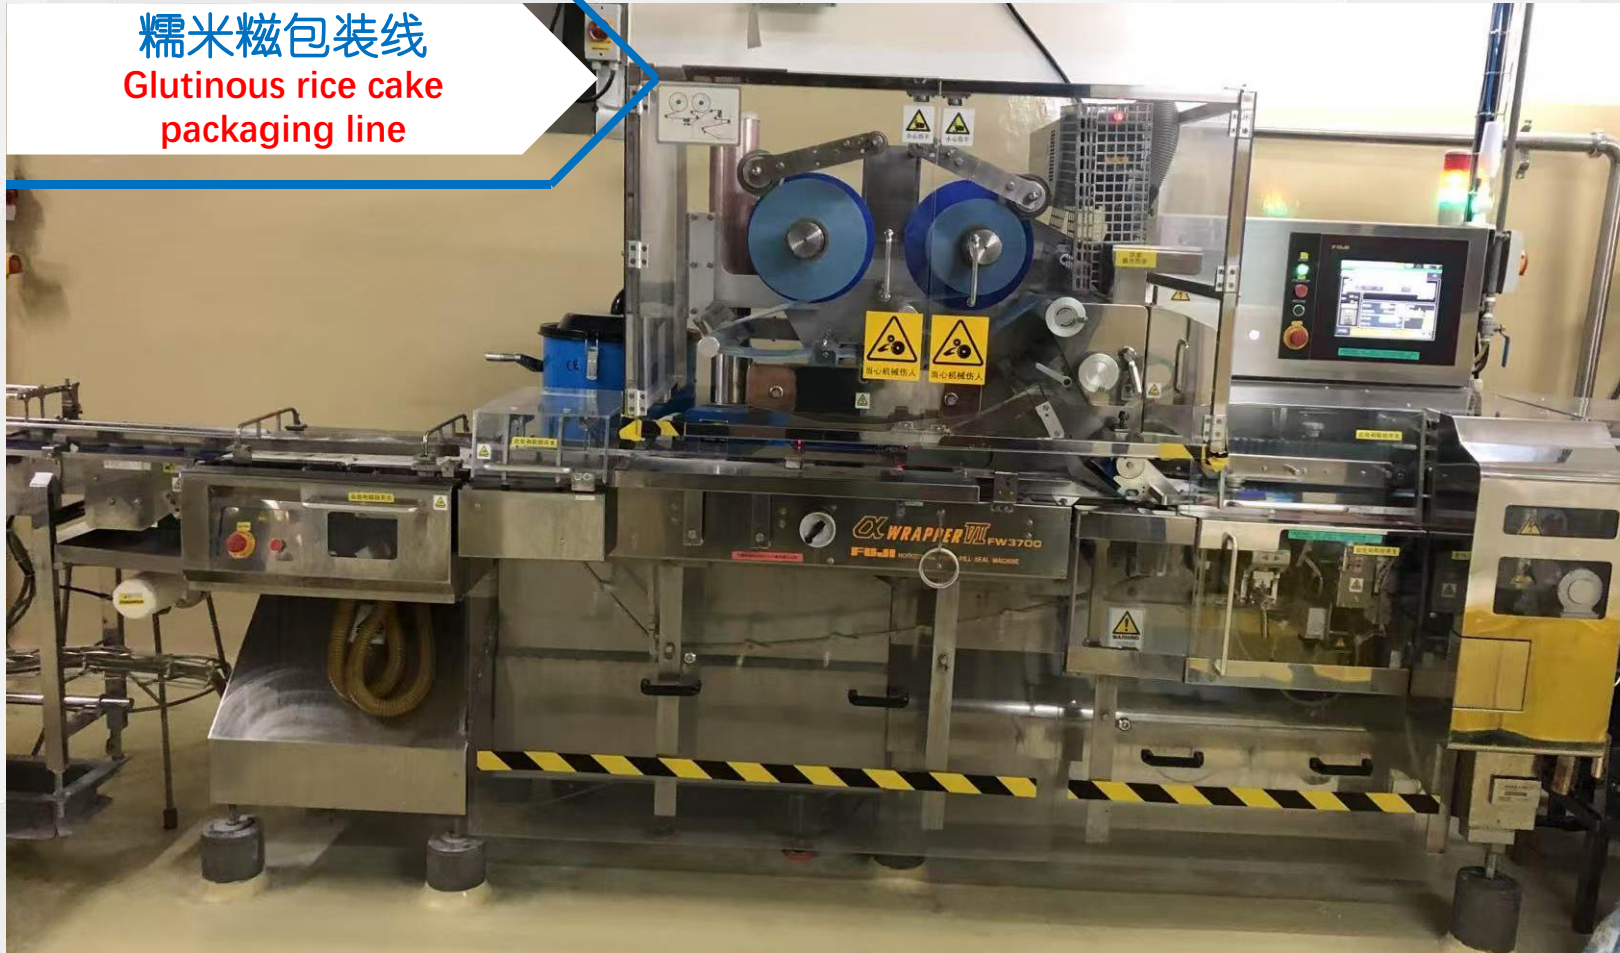

麦淇淋包装整线 Margarine packaging line:
麦淇淋切片-称重-包装-机器人装箱-封箱。
Margarine slicing - weighing - packaging - robot boxing - sealing.

实际案例

Practical cases

糯米糍包装线
Glutinous rice cake
packaging line

糯米糍包装整线 Glutinous rice cake packaging line

雪糍生产-雪糍运输-理料装置理料-雪糍包装-成品运输。

Glutinous rice cake production - glutinous rice cake production transportation - material handling equipment - material handling - glutinous rice cake production packaging - finished product transportation.
